...The Proposed Grand Musical Festival Fair Week—A Southern Edition of the Boston Jubilee.—The Executive Committee of the State Agricultural Society have secured the aid and co-operation of the three musical professors of this city, Profs. Schneider, of St. Mary's School, Bauman, of Peace Institute, and Dr. L. Von Meyerhoff, of the Baptist Female Seminary, for the inauguration of a Grand Musical Festival during Fair week, at which time the various prizes to be given out by the Society will be distributed. The gentleman above named, in order to make this concert an honor to North Carolina, and also to the musical talent of the State, will invite the co-operation of professors of music of the various colleges in the State, and also the leading amateurs. As soon as sufficient pecuniary aid can be secured, (and we believe that every college and seminary in the State will be represented by its musical head,) our city professors will commence the work of the programme and all other arrangements as will make it the grandest feature of the Fair ever.

...We shall take occasion to refer to this proposed festival again, in which we will give a detailed account, as far as possible, of the manner in which this grand concert of a very largenumber of performers can be successfully gotten up without attendance on rehearsals here. The music will be mostly new pieces, specially practically arranged for the occasion by the directors above named, and the different parts will be sent out to those to whom they are assigned. The choicest of the pieces will be performed by the musicians here with their copies, and those that can find it convenient to attend the rehearsals with them, hence several hundred *musicians* will join either in a chorus or on instruments.

...Professors of music and amateurs throughout the State are pressingly invited to assist in this "new movement" for our State that will tend to the advancement and exaltation of the profession, and are furthermore requested to communicate their intention to do so to either of the above named professors at once.

...We propose to give a brief history of the musical reputation of the performers and their names are entered on the list. Schneider, Professors Schneider, Bauman and Dr. L. Von Meyerhoff are the directors and committee on organization, to whom all inquiries, &c., should be addressed.

...The State press will confer a favor by giving publicity to the above.

THE MASONIC CELEBRATION AT HENDERSON IN AID OF THE HOME ORPHAN ASYLUM.

The Masonic celebration at Henderson in aid of the home Orphan Asylum, at Oxford, came off Thursday as per announcement.

The powerful rain of the day previous, the heaviest in Granville county this season, overflowed the creeks and branches, carrying away every bridge on country roads leading to Henderson, which prevented a large attendance from the country. But notwithstanding with the arrivals on the trains, and a general turn out from the town and country, the large tobacco warehouse of Col. Wilkinson was filled with a large, appreciative and paying audience.

The Henderson Lodge of Masons, together with representatives of the craft from Warrenton, Franklinton, Kittrell's and Raleigh, formed in the lodge room in regular

ORDER OF PROCESSION

at 1½ o'clock, and preceded by the Citizens Cornet Band, of Raleigh, marched through the principal streets of the town to the hall.

Grand Master Nichols and Grand Lecturer Walker occupied appropriate places in the procession.

Arriving at the hall, Worshipful Master R. W. Davis introduced to the large audience that had assembled previous to the arrival of the procession the orator the day, Col. Geo. Badger Harris of the Henderson Lodge.

The theme of

COL. HARRIS' SPEECH,

or we may say the text of his sermon was peculiarly appropriate to the occasion. It was found in article——of resolutions on page —— in the proceedings of the Grand Lodge of Masons of 1872. The resolution was in regard to devoting the property of the Grand Lodge, known as St. John's College at Oxford to the purpose of a Home Orphan Asylum; the appropriation by the Lodge of partial means for its support, and the election of a proper person as general superintendent and manager of the Asylum. In his remarks, the speaker gave a very interesting history of the College from its beginning to the present time; dwelling at considerable length upon the noble and meritorious work now going on within its walls, the moral and intellectual training of the orphans of the State, &c. His appeal for its support by all classes of our citizens was strong, impressive and we are glad to say had a telling effect on the audience. Of the address as a whole, we only heard but one expressed sentiment in the way of criticism, that it was excellent.

After the speech the audience was notified that

A SUMPTUOUS COLLATION

was in readines for those that hungered, in the tobacco factory of Mr. Meadows, adjoining the warehouse. The supply of edibles was fully adequate to the demand, and in regard to the quality, and general arrangement of the dining room, suffice it to say that the ladies of the town had full control of this department of the festivities. For several hours the large room was alive with hungry men, women and children, who did full justice to the tempting viands spread out before them. We were unable to learn the amount realized from the dinner, but it must have been quite large.

The "day's doings" closed with

A GRAND BALL

in the Wilkerson warehouse. If we had space sufficient, we would call to our aid Syme and his scissors, in order to do this part of our report justice, but as it is, we must boil down to a very brief mention of the truly agreeable and pleasant occasion. Warren, Granville, Franklin and Wake, each were represented by the best they "had in the shop," and we never saw a more attractive lot of young ladies or a more homely set of young men and old boys. The dance was kept up all night, and Granville like, continued to the next. We never witnessed better order and decorum in a ball room and considering the large number present everything passed off pleasantly.

HENDERSON

is still on the high road of improvement, and business and business men brisk, prosperous and prospering. There is no town or village in the State that has as many good hotels. We have taken the disease of every man that has ever stopped at Simon Kittrell's, which is, not being able to go anywhere else, and did not visit the other two; but we learn they are remarkably well kept, and customers never go away dissatisfied. We speak by the book when we say there is not a better hotel in the State than the Kittrell House.

The farmers tell us that they have no cause of complaint against the tobacco warehouses; that they realize as much or more by selling at Henderson, and the tobacco business is largely on the increase at this place. New men are coming into the town, new buildings are going up, and a new order of things generally is being organized in the old town—all for the better.

The Concert at Kittrells—Help the Orphans.—At the solicitation of Maj. Blacknall, Proprietor of Kittrells' Springs, Mrs. James Leigh and Mrs. Elliott, of Norfolk, who are now at the Springs, will give a concert on Tuesday next, the 19th inst., for the benefit of the Orphan Asylum at Oxford.

Two of Norfolk's noblest daughters proffer their aid in behalf of a charitable cause in this State.

It is a very kind and generous act. Let us show our appreciation by seconding their efforts. There should be a large attendance from this city.

There should be a large attendance from this city at the Concert in aid of the Orphan Asylum, which comes off on the 19th inst., at Kittrells. Let those who can not go, send some contributions there to Mrs. S. A. Elliott, at whose solicitation the Concert is given.

B. Underwood, Esq., of Cumberland county, the other by C. F. Reams, Esq., of Wake county. To make this interesting test, one-fourth acre of land *inside the enclosure* will be planted in cotton.

Attempted Suicide.—Yesterday morning it was discovered by the inmates of the house, in Western Ward, in which he was, that Martin T. Whitlock, employed at the Penitentiary as an overseer, had taken a large quantity of laudanum with an intention of putting an end to his life. Drs. F. J. Haywood, Dr. E. Burke Haywood, and F. J. Haywood, Jr., were summoned, and by the application of vigorous remedies succeeded in rousing up the patient, and at last accounts he was getting on very comfortably. We have no information as to the reasons which induced Whitlock to attempt self-destruction, nor have we any of the particulars which attended the taking of the deadly drug and the subsequent discovery of his condition. Whitlock is a young man of about thirty years of age.

Meeting of the Board of Directors of the North Carolina Railroad.—Yesterday the Board of Directors of the North Carolina Railroad met in this city at the National Hotel. The President of the road, Col. T. M. Holt, presided. Messrs. W. A. Smith, W. R. Myers, J. L. Morehead, N. H. D. Wilson, R. B. Haywood, J. R. Harrison, L. M. Humphrey and John McDonald, Directors, were present. The proceedings of the meeting are withheld from publication, but we are informed that the financial condition and policy of the corporation were discussed, and that the lease question was also touched upon.

The Board adjourned to meet again in this city at the National Hotel on the 5th of next month.

Important to our Business Population.—Capt. L. R. Exline, the General Superintendent of the Cape Fear & Deep River Navigation Company, was in the city yesterday, and from him we learned the following facts in regard to the progress he is making in opening the communication on these rivers to Lockville, which is connected by rail with Raleigh: By the most strenuous efforts Capt. E. has succeeded in raising nine-tenths of the amount by subscription necessary for completing the repairs on the dams at Lillington and Northington, on the Cape Fear, in Harnett county, and work on the same is now in progress. When completed, which will be before the Fall shipping season commences, a daily line of steamers will ply between Lillington and Lockville, and the immense amount of cotton and turpentine heretofore transported by wagons to Fayetteville will find its way direct to our market, thus adding no little amount to our city trade.

The amount subscribed so far, from Harnett and Chatham counties, and by private parties is nine thousand dollars. Ten thousand is the amount required to complete the work. Now will the Raleigh Board of Trade see that this amount is subscribed to this enterprise? The subscription is not asked as a gift but a loan, and will be paid back to those subscribing from the first freights collected. Four thousand of the amount subscribed is a gift to the county of Harnett by Col. Heck, and only six thousand dollars is to be returned to subscribers. We hope our business men will take a *business* view of this matter and act accordingly.

Lusus Naturae.—An intense excitement pervaded the entire neighborhood of the city yesterday morning, of which the Raleigh & Gaston Railroad Shops is the centre, which was occasioned by the arrival in that locality of a new born female babe with a full and complete fashionably shaped chignon or waterfall in full growth on its head. The hair grows from the top of the head down to the neck and shoulders, was properly arranged as a chignon, with even the net of natural hair and growing from the scalp, confining it in position. This strange freak of nature has been witnessed by numbers who "would not this tale believe without the true and sensible avouch of their own eyes." We obtained our information from an eye witness.

For Linville Falls.—We learn that Mrs. M. E. Whitaker, the talented Editress of the *Friend of Temperance*, in company with Miss Mary A. Whitaker, of this city, left on the train Tuesday evening last for Linville Falls, Eupeptic Springs, Olin, Asheville, Old Fort, and other places of note in the western part of the State, for the purpose of regaining her health, which we regret to learn was very bad. We hope she may return greatly strengthened, if not entirely well.

Ridgenay Ale.—We are indebted to Mr. Charles Petar, the Ridgeway Brewer and Vineyardist, for a keg of superior Ridgeway Ale. The ale is of excellent quality and fully up to the draught ale which we get from the North. Mr. Petar deserves encouragement and support in his efforts to inaugurate a hitherto untried branch of industry in our midst. We wish we could induce other enterprising gentlemen like Mr. P. to come and help us with their skill, industry and capital to utilize the advantages which nature has so richly endowed us.

State of the Thermometer.—The Thermometer yesterday was as follows at Branson's Book Store:

At 9 a. m.	74
At 12 m.	76
At 3 p. m.	78
At 6 p. m.	78

MARRIED.

RAY—FLINN.—In this city, at the Howell House yesterday at 2 P. M., by Rev. A. W. Mangum, Mr. John Ray, of Wake, and Miss Ellen Flinn, of Johnston. No cards.

DIED.

LYON.—In this city, at 7 o'clock P. M., on the 15th inst., Mrs. Mary Lyon, consort of W. H. Lyon. She leaves two children and a large number of friends to mourn her loss.

July Agricultural Report.

Washington, August 15.—The returns of the Agricultural Department for 1st of August indicate a general and somewhat marked improvement in the condition, and the promise of the cotton crop since the first of July, to the relative condition reported at the second periods is as follows:

States.	July 1, 1872. no. of co's	av con	August 1, 1873. no co's	av con
N. C.	43	91	41	95
S. C.	16	82	15	87
Ga.	58	94	55	95
Fla.	10	99	15	103
Ala.	36	85	31	91
Miss.	31	83	30	88
La.	19	80	19	86
Texas	51	78	46	83
Arkansas	29	90	25	89
Tenn.	24	96	29	94

The average condition for all the counties reporting in these States was July first 83 per cent.; August first 91 per cent. These figures are corroborated by the explanatory notes of correspondents, which, with few exceptions, are much more hopeful in their tone than they were a month previous. The chief drawback is a wide spread apprehension of insect ravages. In North Carolina lice are reported in four counties. In Chowan, old farmers say they never saw cotton lice so numerous before. In Camden, the cotton louse in many instances has almost ruined the crop. In Perquimans, cotton is almost covered with lice. The caterpillar is reported as having appeared in greater or less numbers in nine counties in Florida, and in five counties in Georgia; also in Jackson county a new enemy to cotton has appeared—a borer which bores into the form and causes it to droop. The caterpiliar worm, army worm, boll worm, or web worm, has appeared in fifteen counties in Alabama; 9 in Mississippi; 12 in Louisiana, and 16 in Texas. Paris Green and other destructive agents are being experimented with, and in some instances it is claimed very successfully that these pests at the date of reporting had done vastly more at threatening than at execution, the cases being few in which they had as yet inflicted serious injury. Whether they will or not, depends upon the condition of the weather and other exigences which no reporter can now foretell. The crop on the whole is still somewhat backward, though in many localities the rapid growth in July has brought it forward to an average advancement for the season.

Foreign Affairs—Things Getting a Little Muddled as to Spanish Matters.

Madrid, Aug. 15.—The Cortes has approved of the bill calling 80,000 of reserves into active service against the Carlist and Republican insurgents.

It is reported that the crew of the British steamer Deerhound, seized by the Spanish man of war for landing arms for the Carlists, will be tried on the charge of piracy.

London, Aug. 15.—M. Rouhr and a number of other prominent French Imperialist, are at Chiselhurst, celebrating a fete.

Intelligence has reached here that the treaty of peace between Paraguay, Brazil, and the Argentine Republic, has been signed.

Dispatches from various places in Germany where the cholera prevails, state the disease is increasing in violence.

Bayonne, Aug. 15.—Dispatches have been received at the Carlist headquarters in this city, announcing that the town of Berga has been captured by the Royalists.

An Indian War Cloud.

St. Louis, August 15.—Advices from the Pawnee reservation in Nebraska, say the Pawnees are preparing for war with the Siouxs in retaliation for an attack on them some days ago. It is said they have 600 warriors among themselves, and have invited the Otocs, Omahas, Yanktons and Poncas to join them, nearly all of whom have accepted the invitation, and at last accounts the braves of these tribes were either at or on the way to the Pawnee reservation. The Pawnees expect to muster 1,600 warriors, and propose to prosecute a relentless war against the Sioux.

The Gallows in Virginia---A Wife Murderer Hung.

Alexandria, August 15.—William Jackson, convicted of the murder of his wife in February last, after having been twice respited, to-day suffered the extremely penalty of the law in the jail yard. Notwithstanding the rain, a large crowd was present, and house windows in the neighborhood was filled with spectators. Jackson made a speech of fifteen or twenty minutes denying his guilt, but not offering the plea of innocence. The fall of seven feet failed to break his neck, and he died of suffocation after a severe struggle. He was attended on the scaffold by three colored ministers. The body hung twenty minutes before life was extinct.

The Wawasset Investigation.

Washington, Aug. 15.—The investigation of the burning of the ill fated steamer Wawasset, shows that the cause of the fire is unknown. The fire raged only from midship to aft part of boat. Only one person, a Mrs. Read, was lost from the fore part of the boat, and she jumped overboard. Nearly all that were aft were lost. The bow was in shallow and the stern in deep water. The evidence indicates that every officer was at his post. The death list has reached 84.

The Siamese twins were recently summoned as a juror in a case in North Carolina. Chang was summoned, and Eng had to accompany him. And now exception is taken to the verdict on the ground that a man not a member of the jury was present in the jury-room where it was agreed upon.

A young man who was married lately in Cumberland, Md., first aggravated the officiating minister by presenting him with a marriage fee of 85 cents, and then capped the climax by returning after he had walked away a few steps and borrowing 75 cents of that, on the ground that he was "a little short just then" leaving the clergyman 10 cents for his fee.

Chiselhurst, Aug. 16.—At Eugenie's reception the Prince Imperial said, "I thank you in the name of the Empress and my own, for having joined your praises to ours, and for having borne in mind the way you piously travelled a few months ago. I thank you also, faithful friends, who have sent from afar numerous testimonials of affection and devotion. As for myself, being an exile near the tomb of the Emperor, I meditate upon the precepts he left for my guidance. I find for a patrimony the principle of national sovereignty of the flag that consecrates it. That principle has been expressed by the founder of our dynasty—words which I shall ever remain faithful to, namely, "All for the people and by the people."

London, Aug. 16.—A *Herald* correspondent with the Carlists telegraphs as follows: Royal Headquarters, Senbiar, Northeast of Pampeluna, Aug. 14.—W are marching with Generals Elio and Dorregarrary and five thousand men towards Aragon with a view to raise that province, and then operate jointly on a movement in Catalonia and Nevarre.

Yesterday we passed within sight of Pampeluna. No attempt was made to molest us. Three hours later we took Fort Bourgette, which was abandoned by its garrison. We found a quantity of cartridges and other war material there, as in other forts latterly captured, including Elijonda and San Estevan. The fortifications were razed. Such of the population as are known to be favorable to the Republicans are subjected to heavy taxation. Operations in Biscay and Guipuzes are left in the hands of Lizaroga, General Vellasco command the Republicans.

Madrid, Aug. 16.—Five British, three Italian and one American men-of-war are laying in Escombera bay. On Thursday three insurgent vessels arrived outside of the forts. The galleys fired on them without apparent effect.

Carthagena is preparing for a long struggle. All males above sixteen years of age have been enrolled. The streets are almost deserted, and the shops are closed. Congressman Geo. F. Hoar, of Massachusetts, has written a denunciatory reply to Gen. Butler's letter defending the back pay act and assailing the press, explaining why he did not himself take the pay, charging Butler with quarreling with every body, and applying a good many epithets to him.

SUNDAY.....AUGUST 17, 1873.

THE QUESTION ANSWERED.

A day or two ago, we asked, who is Mr. Fairchild of Kentucky, who in the National Educational Convention, at Elmiria, New York, stated that the old slaveholders in the South were opposed to popular education?

The following letter from Mr. C. B. Fairchild, of this city, tells us who the Kentucky Fairchild, or as the Wilmington *Star* would have it, un-Fairchild, is. Mr. C. B. Fairchild who gives us the information in regard to his namesake, is from Binghamton, New York, and has been residing in this city since last November. His experience is different from that of his namesake. He says a majority of the people of the South whom he has met and conversed with on the subject are not opposed to popular education, although he has met with a number who held different views.

The people of the South recognize the fact that the colored menare now citizens of the United States, and are invested with all the political rights of other citizens, including of course the right of suffrage. They further recognize the fact that those who take part in the affairs of the State and nation ought to be intelligent. Therefore they do not oppose the education of the blacks, but they will never approve of the co-education of the two races in the same schools and colleges. Dr. McCosh's statements at Elmira were grossly unjust to our people:

RALEIGH, N. C., Aug. 15, 1873.

Eds. News:—In your issue of Saturday morning, you ask "who is Fairchild, of Kentucky, who spoke in the National Educational Convention, Elmira, N. Y., last week?" Thinking that your statements will tend to prejudice your readers against a good man, and one who is a true friend to the South, I am prompted to respond. But I have no interest in defending his statements, although I think there is some ground for them.

E. H. Fairchild is President of Berea College, Kentucky. He is one of three brothers, sons of Grandison Fairchild, of Oberlin, Ohio. They were all educated and were teachers at Oberlin College.

James H. is still a teacher at Oberlin, Charles G. is President of an Agricultural College at Brownhelm, Ohio.

I know President Fairchild only by reputation. He is not a carpet bagger, and I do not believe he is an advocate of miscegenation. I have never met a Northern man who was. His statement that the slaveholders in the Southern States are opposed to popular education should have been qualified as to a majority perhaps, but I must assert that I find in the city of Raleigh a number of persons holding these views.

I am glad the subject is being agitated, and I believe the time will soon come when not a vestige of such views will be found. I cannot think Dr. McCosh intended to misrepresent the South. I am aware that one can form no true opinion of the Southern people by a short tour through the States. One needs to live here to know your people. My own mind has been entirediscarged of *all erroneous* impressions in regard to this State. And I am glad of the opportunity to express my gratitude for the attention and kindness shown me by all classes of your people. I believe I have made more friends coming as I did, a stranger here, than I could have done in the same time in any Northern city; and I am doing all I can to induce my friends all to come and enjoy our beautiful South.

Very Respectfully,
C. B. FAIRCHILD.

THE ONE TERM PRINCIPLE.

The Republican journals seem to be highly amused at the discussion which has been inaugurated on the subject of Cæsarism.

Mosby, in his interview with the Richmond reporters, boldly proclaimed that he would advocate the election of President Grant for a third term. He also gave it as his opinion that the State of Virginia would cast her electorial vote for him in 1876, if he were again nominated for President.

The annunciation of these sentiments by an individual who until recently had been distinguised by his opposition to the Radical encroachments of power, has naturally led to a wide-spread discussion on the tendency towards Cæsarism in America and the results that may be entailed by the investiture of Grant with the highest official honors in the gift of the nation, for three successive terms.

Whilst most of the organs of the President have treated the matter lightly and affected to sneer at the apprehensions that have been expressed by many of the leading Democratic and independent journals of the country, yet we occasionally find out-croppings from some of the supporters of the President taht are indirect admissions that in certain contingencies the President may be induced to "thrice wear the crown."

If necessary to preserve the peace and liberties of the country, quoth the Washington *Chronicle*, President Grant would consent to serve a third term "as Washington would have done under like circumstances." Necessity knows no law. It is, like the sword, the last argument of kings—*ultima ratio regum*.

We prefer that the President of the United States shall not have an opportunity to "thrice refuse the crown," and therefore we advocate an amendment to the Constitution of the United States embodying the one-term principle.

A Cincinnati man has announced his intention of publicly dedicating a new barn with religious solemnity.

VIVID DESCRIPTION OF SEA-SICKNESS.

In the Wilmington *Journal* of the 14th inst., we find a highly interesting letter from Scotland, written by a Wilmingtonian, W. G. McRae, Esq., who is one of the Commissioners from North Carolina to the Vienna Exposition. The letter occupies near four columns of the *Journal*. It is admirably written and reflects great credit on Mr. McRae. The following vivid description of sea-sickness will be recognized as a fearful picture by many who have endured its agonies:

"We tossed about for several days like a mere cork upon the seas. The Captain became sea-sick, and several of the men, who were all old salts, were forced to give up. Need I add that a couple of distinguished foreigners were soon *hors du combat*? And what, in the name of common sense, is life itself worth when your appetite is gone; when your brains swim round like boiling mush; when you are momentarily threatened with a rush of stomach to the head; when nothing will abide with you, and even the legs that have kindly supported you from tender infancy, flatly refuse their offices? The very clothes on your back struggle to get "shed" of you! Your vest works itself into a sort of nautical hangman's knot under your left ear.

You have, in short, become an object of contempt and loathing to yourself, and are too evidently a terror and a nuisance to those about you; and a nuisance, moreover, which cannot be abated. You may gather all your feeble energies, with a desperate effort, and try to put on a bold, natural, life-like appearance; if you are naturally 'feeble-minded' [you may attempt to smile upon those who are holding themselves aloof, but suddenly, whilst the glimmer of victory fires your eye, your under jaw drops as if you had been shot in the back, your tongue strains at its moorings, your eyes start from their sockets, your bowels yearn with a yearning not of earth, your friends flee away as from one with the plague, and you only recover yourself to find 'all lost save honor.' And what is honor?—a word—air—a mere 'scutchon—the possession of him that died o' Wednesday.' May asses graze on the graves of the poets and all such as have, with 'the vision and faculty divine,' sung the praises of Neptune!"

BREVITIES ON CÆSARISM—3.

Who in America would have a Cæsar!

3.—A few persons, scattered all over the country, have no faith in the capacity of the people for self-government. They are honestly favorable to monarchy. They regard all continued efforts to perpetuate popular institutions, as a useless and cruel prolongation of torture to poor human nature. They would gladly know the agony in America, to be at an end; and would hail with rapture the proclamation of the Empire. Some of these individuals have brooded so long and so consistently over a catastrophe of the future, that it is to come of Democratic license, that they seem to hate this Republic more bitterly than any other government in the world.

This class is small, but it has existence within the knowledge of every thinking and inquiring man.

4.—We are stating now, what seem to us facts. Comments we reserve for the future. In the South, there is a class of persons so hostile to the United States of America, because of the destruction of slavery, and the enfranchisement of the negro, that they would gladly turn the nation over to any despot, foreign or native, who would accept it and rule it. One of these at our elbow consents to State his own case for us:

[From the Shreveport (La.) Times, Aug. 3].

Nor will the grim reality down at the bidding of the *Herald* or the curses of the Northern people, and the country may soon be startled by the development in the South, which has been hated, badgered, robbed, persecuted and trampled in the dust, of a widespread and powerful organization of the white people to sustain General Grant's pretensions to a life-time Presidency, or if he desires it, to a sceptre and imperial crown. They remember that General Grant was formerly a Democrat of liberal views; that he never believed in the policy of enfranchising the freedmen; that he displayed a lofty magnanimity in accepting the surrender of General Lee; that, sent on a tour throughout the South by President Johnson, he gave a truthful, liberal and kindly report. They consider in this connection that the apostles of hate are the leaders of the Republican party; that the scoundrels who have plundered these States and smitten them with ruin have all been Radical politicians and Republican emissaries; that the Republican party has regarded the negro vote as its backbone of strength, and, by the most unjust and unmerciful systems of tactics, organized it as a unit against the whites and the true interests of the South; they remember all these things and many more of the same nature, and they naturally conclude that their best hope is in emancipating General Grant from the thraldom of his party by placing him above it, as above the South—in short making him Dictator, perpetual President, Cæsar, or, if he desire it, Emperor."

[Yesterday's types said "indignant meetings" where we wrote "indistinct mutterings of the coming Commune."]

THE WAWASET INVESTIGATION.

The Richmond *Enquirer* thinks the investigation of the burning of the Wawaset will end, like that vessel did—in smoke.

Our telegrams yesterday tend to corroborate the opinion of our Richmond cotemporary. "The evidence indicates that every officer was at his post." Of course. But what has become of the charge that the owner of the Wawaset failed to obtain permission to take on more passengers than his license allowed?

In such calamities there is almost always somebody to blame; but we rarely hear of anybody's ever being punished.

It is now ascertained that eighty-four persons met their death by the burning of the Wawaset—which is more than half of the whole number of the passengers on board.

THE MUSICAL FESTIVAL.

The Executive Committee of the State Agricultural Society seem untiring in their efforts to add to the interest and to promote the success of our next State Fair.

In addition to the attractions which we have heretofore noticed, it is now announced that the Committee has resolved, if they can secure the aid and co-operation of the musical talent of the State, to give a grand musical festival one day during the Fair week, in which the professors of music in the several female schools and colleges throughout the State, together with the leading amateur performers, will be invited to participate.

The Philadelphia lawyer who was thrown over the bar for unprofessional conduct, in that he, allowed a client to escape with seventy-five cents in his pocket, will find a sympathizer in the Niagara hackman, whose license has just been taken from him because he only charged four dollars and a half for one hour and fifteen minutes work.

SPECIAL NOTICES.

BILLOUS.—If you feel dull, drowsy, debilitated, despondent, have frequent headache, mouth tastes badly in morning, irregular appetite and tongue coated, you are suffering from Torpid Liver or "Billousness." In many cases of "Liver Complaint" only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect cures, leaving the liver strengthened and healthy. Sold by all first-class druggists.

How unnecessary the anguish many persons undergo from rheumatism, sciatica, neuralgia, toothache and earache. We say unnecessary because the application of Mexican Mustang Liniment to the affected part, or a few drops of it in the ears or tooth, affords instantaneous, and what is better, permanent relief. For cuts wounds, bruises, swellings, and all injuries or diseases which require treatment externally this liniment is everywhere regarded as the most potent and reliable healing agent in existence. For all external injuries or ailments of horses and cattle, it is infallible.

His Honor, HENRY POTTER, late Judge of the United States Court for the District of North Carolina, gave the following as his opinion of Beckwith's Pills:

"For some ten or twelve years past I have been in the habit of using Dr. BECKWITH'S ANTI-DYSPEPTIC PILLS in my family, and consider them so valuable as a domestic medicine, that I never suffer my stock to be exhausted. I have used them with good effect in dyspeptic cases, under various modifications, and have found them efficacious in relieving from sick Headache, and from all the usual symptoms of functional derangement of the secretions. As an aperient, they are excellent. I have long had the pleasure of an intimate acquaintance with the inventor of these Pills. He is a gentleman of talents, integrity and worth, and he ranks high in the science of medicine and the healing art.

A Summer Trip to the Mountains.

OLD FORT, N. C., Aug. 12, 1873.

Editors News:—For the third time since our arrival in the mountains I have returned here, making it a sort of "point of departure" for various expeditions. The rains which have been very abundant have delayed us somewhat, but if it is pleasant in the morning we start for Mt. Mitchell, going thence by an entirely new route, in order to visit the signal station of the weather Bureau, at its base. This station has been established about twenty days, and for twenty days it has not failed to rain in this vicinity. There is a dim suspicion that "Old Probabilities" has something to do with this excess of moisture, and I am going up to interview him in regard to it.

Old Fort is about as pleasant a retreat as I have found in the mountains, situated at the side of the Blue Ridge, we cannot get higher without climbing, it is six miles to the top, with a rise of nearly 400 feet to the mile. Here railroading ends and staging commences. I despise a stage. I have followed various employments, but I never went on the stage, except to Ashville, and before I got half way there I wished I had went on foot. I hope that in the next stage of existence there will be no stages. I am not an old stager.

Why are all stage drivers liars? This is a conundrum. Answers will not be sent in until I return from the mountains. I do not ask it for the special benefit of Spence, the driver on the Asheville route, for if I did, I presume that it would be attended with considerable *expense*—to me; but all stage drivers that I have ever seen, use a vocabulary that sets Webster at defiance, and is usually of a *dam*aging character, and I shall never take one at his word again. Coming over the mountain the other day, just as a huge limb of a tree swept along the side of the coach, Spence bawled out, "look out!" of course I obeyed orders and looked out, and—well, I relate the circumstance that my friends may know that I lost my hat and got my nose skinned in a perfectly legitimate way—a fair business transaction.

Old Fort is an incorporated town, has a Mayor and Common Council, whose principal employment is to pass ordinances for the government and regulation of the place. Some of them are excellent, one particularly so—it is ordained that no person shall keep more than three dogs; this "the city fathers" assured me was meant that no family should keep more than three dogs, but with an utter disregard to the intent and meaning of the law, the citizens insist that each individual is permitted to keep three dogs for his own sole and exclusive use, and acts accordingly, and the consequence is that one occasionally sees a dog and hears them—well, last night I gave the matter some attention, about five hours of wakefulness, and I counted one hundred and twenty-seven distinct and definite barks, and Joe Burgin said it was not a good night for dogs either; some efforts have been made to abate the nuisance. Joe says the best remedy he has ever tried is a dose of duck-shot administered with a shot gun. I have borrowed a gun.

"He's a good fellow, but can't keep a hotel," is a very common expression, but it does not apply to Joe Burgin; that he can keep a hotel, is the testimony of every person that stops at the "Burgin House," and that he is a good fellow is admitted by all that know him; but this is not half the story, the "better half" that presides over the "Burgin House" with the dignity of a lady and the grace of a duchess is deserving of quite as much praise; may her shadow—increase.

The principal article shipped from Old Fort at the present time is roots for medicinal purposes. I have often wondered where the enormous amounts I have seen in Northern cities came from, but it is no longer a mystery. Car loads of Ginseng, Angelica, May apple, Lady finger and other roots are shipped from here every season. Invalids, do not despair, I have seen "yarbs" enough in a single store here to last us the balance of our lives, and longer, too, if you will all do like me, "throw physic to the dogs" and put for the mountains. There is something in this mountain air that is bad for boarding house keepers; ruin stares them in the face unless they receive the price of board. A casual conversation with any visitor you meet acquaints you with the fact that they are invalids, with no appetite, seeking a change of air, &c., but if you could only see them eat you would think they had just escaped from a prison pen; their capacity for storing away good victuals is enormous. At the sound of the dinner bell they will march into the dining room hall with a resolution that cannot but be admired if not commended, and the provisions that should answer for fifty people, disappear before twenty of these poor invalids with no appetite; but then there are no doctors here. G.

THE FATHER OF ALL SNAKES.—A few days since, while Joseph Selby was gathering raspberrics, he came to what he supposed to be a log, and being somewhat tired, he sat down upon it to take a rest, when, much to his surprise, he commenced moving down hill. He was so much frightened that he did not know for some time what was the propelling power, but when he recovered himself he found that it was a monster snake carrying him upon its back. He supposed it was from fifty to sixty feet long, and as thick as his body. He fell off during the journey, and the snake continued down into the hollow. This snake has been seen by various parties for several years past, mostly in the raspberry season, but nobody has enenjoyed such an intimate acquaintance with the monster as Mr. Selby. We would advise everybody to be on the lookout for this reptilian monster during the raspberry time.—*Burnesville (S. C.) Enterprise.*

Two unsuccessful attempts at cable laying have recently been made in Michigan, the design being to extend the wires across the Strait of Mackinaw, the entrance to Lake Michigan, and thus to connect the upper and lower peninsulas which form the State of Michigan. In the first attempt the bottom was found so uneven and rocky as to give little hope of the durability of the cable when laid. It was attempted a second time at a different place, but the cable was too short to span the strait. The cable expedition has subsequently returned to Detroit, and a larger cable is to be manufactured for the third attempt.

A NEW cholera preventive is suggested by a French newspaper, *the Journal de Lyon*, in the form of silk shirts. It says that the well-to-do Chinese protect themselves absolutely from epidemics by wearing these garments, and it recommends the manufacture of a silk fabric for the purpose which will be cheap enough for all to obtain. As the *Journal de Lyon* is the organ of the silk interest in France, this suggestion may possibly not be made so much for sanitary as for commerial reasons. Still it is worth looking into by the scientific teachers in our medical colleges.

DOUBLE ACTING FORCE PUMPS

KITCHEN BROS.,

(Successors to CAROLINA PUMP COMPANY, LOCATED IN RALEIGH.)

Are prepared to furnish at short notice the Kitchen Pumps of various sizes with Porcelain Cylinders which can't injure the water. This is a submerged deep well pump, now in use 2½ years without the expense of new packing. We make all sizes, capacity 30 to 150 gallons water per minute, working in every conceivable way and by the use of hose which can be attached in half a minute, these pumps at once become a hand engine of great power, throwing water on the roof of three story buildings, with one hand, and they will stand four to six men safely. We have not heard of one of them being overcome by fire, and yet they have been tested by over fifty fires, saving over $500,000 worth of property. For ordinary use children work them easily if set up by our printed directions, and if so set we warrant them 12 months. Our Double Suction and Force Globe Pumps, also invented by J. L. Kitchen is capable of being used as a Drive well pump and is well adapted to steamers and vessels of any class; one man can throw water on the roof of 3 story buildings. But it has a double ended lever and with four men is a very superior hand engine. The No. 3 Globe Pump is 12 inches in Diameter with 1¼ suction and 1¼ discharge pipe and throws 40 to 100 gallons per minute, according to speed. The No. 3 Globe, 7 inches in diameter, 1 inch suction and ¾ of an inch of discharge pipe, capable of 25 to 30 gallons per minute. These Globe Pumps we make of cast iron for common use, brass for salt water and block tin for the inside of houses for drinking water, they lift the water 25 feet perpendicular, and you can sit it in the house and draw water from springs or wells at great distances.

All kinds of steam and water pipes fitted at short notice; hose, hose-pipes and couplings furnished here, &c.

Send for price list. The entire depth of wells with good references must accompany all orders.

Some few of these pumps have not given satisfaction but in each case it has been attributable to the maker and not the principle of the pump. We are now employing the best mechanics only, and are determined to have none other.

Address KITCHEN BROS,
Raleigh, N. C.

PARTNER WANTED.—Being unable to fill the orders that we already have, because of the small capital invested in the business, we will take in partners with money, or go into a stock company if desired.

MR. J. L. KITCHEN—The pump you put in my well which is thirty-two feet deep, I have been using nearly two years; it has proven entirely satisactory, and by attaching a hose which I got of you it becomes a local fire engine of invaluable service. For ordinary domestic purposes, the pump can be used by small children.

JOHN L. KITCHEN, Esq—

Dear Sir—I have had one of your Force Pumps in use for two years, and it has proved in every respect as you represented it and I would not be without it for twice the cost of it.

Yours respectfully,

R. A. WATSON.

GREENVILLE, April 19, 1873.

MR. J. L. KITCHEN—

Sir—I have been using one of your pumps driven from my steam engine, for supplying my tanks. I have used it continually for two years, and can confidently recommend it for any purpose where water is required. The pump is so constructed that it will last without getting out of order for years, and I have heard no complaint from any of your many pumps used in this locality for yard well pumps.

WM. S. BROADDUS.

John C. Gorman and W. C. Stronach, of Raleigh, give certificates stating that they have had the pump in use one and two years, are perfectly satisfied with it, and it has not cost them one cent for repairs.

Messrs. Wilson and Walker, of the North Carolina Mills, on the North Carolina Railroad, write that the No. 2 Globe Pump, with 50 feet of 1¼ inch hose, purchased from the Messrs. Kitchen to protect their planing mill, sash and blind factory against fire is their best pump they have ever seen. They will buy another as soon as it can be made, for another well. Several parties have examined their pump and will buy when they see them.

CHANGED.

LONGFELLOW—NEW POEM.

From the outskirts of the town.
Where the old mile stone stood,
Now a stranger, looking down,
I behold the shadowy crown
Of the dark and haunted wood.

Is it changed, or am I changed?
Ah! the oaks are fresh and green,
But the friends with whom I ranged
Through their thickets are estranged
By the years that intervene.

Bright as ever flows the sea,
Bright as ever shines the sun.
But alas! they seem to me
Not the sun that used to be,
Not the tides that used to run,

How Princes Tell Their Love.

It seems that at one time some stripling of a prince, with ample means, and who knew that the thing had got to be done up handsomely to produce an impression, decided to send an Easter egg to the damsel of his love, who, in this case, happened to be a princess of the royal house of Saxony. So he called a skillful jeweler to his aid, and the order was given. The result was an Easter egg such as had never been seen before, and has certainly never since been equaled, which to-day is preserved in the Green Vault. Prince and princess have passed away, but the ingenious trinket remains to tell how the scions of royalty told their love in the days of old. To the ordinary observer it is an egg and nothing more. But close examination reveals a line of separation which encircles it, and further search discloses a spring. Touching this the egg-shell, which proves to be gold, enameled to represent a shell, opens and reveals a chick, fledged, with every part counterfeited, but all of gold, enameled. Turning the little fellow over, and touching a concealed spring the body opens, revealing another egg of smaller dimensions. This, also of gold and also enameled, opens like the first; and now we come to the kernel of the whole affair, an elegant solitaire diamond ring, the stone of wonderful beauty and clearness of water, and worth a small fortune in itself. The writer's memory of genealogical facts is not strong, and as the earlier editions of the Almanach de Gotha are at hand, he cannot say whether the lady accepted her princely suitor, but it is very certain that she accepted the egg, for it is still in the strong rooms of the house of Saxony, a curious and costly trinket.

Dooley's Yeast Powder cannot be excelled for making light, sweet Rolls, Biscuits, Waffles, Corn Bread, &c. It is always ready and reliable.
